

- c. Where the subdivider owns property adjacent to that which is being proposed for the subdivision, the Village Board may require that the subdivider submit a preliminary plat of the remainder of the property so as to show the possible relationships between the proposed subdivision and future subdivision. In any event, all subdivisions must be shown to relate well with existing or potential adjacent subdivisions.
- (6) Referral to Other Agencies. The Village Clerk shall, within two (2) days after filing, transmit four (4) copies to the County Planning Agency, two (2) copies to the Director of the Planning Function in the Wisconsin Department of Local Affairs and Development, additional copies to the Director of the Planning Function for retransmission of two (2) copies each to the Wisconsin Department of Transportation if the subdivision abuts or adjoins a state trunk highway or a connecting street and the Wisconsin Department of Health and Social Services if the subdivision is not served by the public sewer and provision for such service has not been made, and an adequate number of copies to the Village Board. The County Planning Agency, the Wisconsin Department of Local Affairs and Development, the Wisconsin Department of Transportation and the Wisconsin Department of Health and Social Services shall be hereinafter referred to as objecting agencies.
- (7) Drafting Standards. The subdivider shall submit to the Village Clerk and to those agencies having the authority to object to plats under provisions in Chapter 236 of the Wisconsin Statutes copies of a preliminary plat (or certified survey) based upon an accurate exterior boundary survey by a registered land surveyor which shall show clearly the proposed subdivision at a scale of not more than one (1) inch per one hundred (100) feet having two (2) foot contour intervals, shall identify the improvements (grading, tree planting, paving, installation of facilities and dedications of land), easements which the subdivider proposes to make and shall indicate by accompanying letter when the improvements will be provided. Any proposed restrictive covenants for the land involved shall be submitted.
- (c) **Preliminary Plat Approval Within the Village.**
- (1) The Village Board shall, within forty (40) days of the date the preliminary plat was filed with the Village Clerk, approve, approve conditionally or reject such plat and shall state, in writing, any conditions of approval or reasons for rejection, unless the time is extended by agreement by the subdivider. Failure of the Village Board to act within forty (40) days or extension thereof shall constitute an approval of the preliminary plat, unless other authorized agencies object to the plat. The Village Clerk shall communicate to the subdivider the action of the Village Board. If the plat or map is approved, the Village Clerk shall endorse it for the Village Board.
- (2) Approval or conditional approval of a Preliminary Plat shall not constitute automatic approval of the Final Plat, except that if the Final Plat is submitted within six (6) months of preliminary plat approval and conforms substantially to the preliminary plat layout as indicated in Section 236.11(1)(b) of the Wisconsin Statutes, the Final Plat shall be entitled to approval with respect to such layout. The Preliminary Plat shall be deemed an expression of approval or conditional approval of the layout submitted as a guide to the preparation of the Final Plat which will be subject to further consideration by the Village Board at the time of its submission.

- (3) Should the subdivider desire to amend the preliminary plat as approved, he may resubmit the amended plat which shall follow the same procedure, except for the hearing and fee, unless the amendment is, in the opinion of the Village Board, of such scope as to constitute a new plat, in which such case it shall be refiled.

(d) Final Plat Review.

- (1) The subdivider shall prepare a Final Plat and a letter of application in accordance with this Chapter and shall file copies of the Plat and the application with the Village Clerk at least ten (10) days prior to the meeting of the Village Board at which action is desired. The owner or subdivider shall file six (6) copies of the final plat not later than twelve (12) months after the date of approval of the preliminary plat; otherwise, the preliminary plat and final plat will be considered void unless an extension is requested in writing by the subdivider and for good cause granted by the Village. The owner or subdivider shall also submit at this time a current certified abstract of title or registered property report and such other evidence as the Village Attorney may require showing title or control in the applicant. The Clerk shall forward a copy of the final plat to the Plan Commission for its recommendation.
- (2) The Village Clerk shall, within two (2) days after filing, transmit four (4) copies to the County Planning Agency, two (2) copies to the Director of the Planning Function in the Wisconsin Department of Local Affairs and Development, additional copies to the Director of the Planning Function for retransmission of two (2) copies each to the Wisconsin Department of Transportation if the subdivision abuts or adjoins a state trunk highway or a connecting street and the Wisconsin Department of Health and Social Services if the subdivision is not served by a public sewer and provision for service has not been made, and the original Final Plat and adequate copies to the Village Board. The County Planning Agency, the Wisconsin Department of Local Affairs and Development, the Wisconsin Department of Transportation, and the Wisconsin Department of Health and Social Services shall be hereinafter referred to as objecting agencies.
- (3) The final plat shall conform to the preliminary plat as approved and to the requirements of all applicable ordinances and state laws and shall be submitted for certification of those agencies having the authority to object to the plat as provided by Section 236.12(2).
- (4) Simultaneously with the filing of the final plat or map, the owner shall file with the Village Clerk six (6) copies of the final plans and specifications of public improvements required by this Chapter.
- (5) The Village Clerk shall refer two (2) copies of the final plat to the Village Board, one (1) copy to the Engineer (optional), and a copy each to the telephone and power and other utility companies. The abstract of title or registered property report shall be referred to the attorney for his examination and report. The Village Clerk may also refer the final plans and specifications of public improvements to the Village Engineer for review. The recommendations of the Village Engineer shall be made within thirty (30) days of the filing of the final plat. The Village Engineer shall examine the plat or map and final plans and specifications of public improvements for technical details and, if he finds them satisfactory, shall so certify in writing to the Village Board. If the plat or map or the plans and specifications are not satisfactory, the Village Engineer shall return them to the owner and so advise the Village Board.

- (6) The Village Board shall examine the Final Plat as to its conformance with the approved Preliminary Plat, any conditions of approval of the Preliminary Plat, this Chapter and all ordinances, rules, regulations, comprehensive plans and comprehensive plan components which may affect it.
- (e) **Partial Platting.** The Final Plat may, if permitted by the Village Board, constitute only that portion of the approved Preliminary Plat which the subdivider proposes to record at the time.
- (f) **Final Plat Approval.**
 - (1) The objecting agencies shall, within twenty (20) days of the date of receiving their copies of the Final Plat, notify the subdivider and all other approving and objecting agencies of any objections. If there are not objections, they shall so certify on the face of the copy of the Plat and shall return that copy to the Village Board. If an objecting agency fails to act within twenty (20) days, it shall be deemed to have no objection to the Plat.
 - (2) If the Final Plat is not submitted within twelve (12) months of the last-required approval of the Preliminary Plat, the Village Board may refuse to approve the Final Plat.
 - (3) The Village Board shall, within sixty (60) days of the date of filing the original Final Plat with the Village Clerk, approve or reject such Plat unless the time is extended by agreement with the subdivider. If the Plat is rejected, the reasons shall be stated in the minutes of the meeting and a written statement of the reasons forwarded to the subdivider. The Village Board may not inscribe its approval on the Final Plat unless the Village Clerk certifies on the fact of the Plat that the copies were forwarded to objecting agencies as required herein, the date thereof and that no objections have been filed within twenty (20) days or, if filed, have been met.
 - (4) Failure of the Village Board to act within sixty (60) days, the time having not been extended and no unsatisfied objections having been filed, the plat shall be deemed approved.
 - (5) After the Final Plat has been approved by the Village Board and required improvements either installed or a contract and sureties insuring their installation is filed, the Village Clerk shall cause the certificate inscribed upon the Plat attesting to such approval to be duly executed and the Plat returned to the subdivider for recording with the county register of deeds. The register of deeds cannot record the Plat unless it is offered within thirty (30) days from the date of last approval.
 - (6) The subdivider shall file ten (10) copies of the Final Plat with the Village Clerk for distribution to the approving agencies and other affected agencies for their files.
- (g) **Engineering Fee.** The subdivider shall pay a fee equal to the actual cost to the Village for all engineering work incurred by the Village in connection with the plat or certified survey map.
- (h) **Administrative Fee.** The subdivider shall pay a fee equal to the cost of any legal, administrative or fiscal work which may be undertaken by the Village in connection with the plat or certified survey map.

SEC. 14-1-5 TECHNICAL REQUIREMENTS FOR PRELIMINARY PLATS.

- (a) **General.** A preliminary plat shall be required for all subdivisions and shall be based upon a survey by a registered land surveyor and the plat prepared on tracing cloth or paper of good quality at a scale of not more than one hundred (100) feet to the inch and shall show correctly on its face the following information:
- (1) Title under which the proposed subdivision is to be recorded.
 - (2) Location of the proposed subdivision by government lot, quarter section, township, range, county and state.
 - (3) Date, Scale and North Point.
 - (4) Names and Addresses of the owner, subdivider and land surveyor preparing the plat.
 - (5) Entire Area contiguous to the proposed plat owned or controlled by the subdivider shall be included on the preliminary plat even though only a portion of said area is proposed for immediate development. The Village Board may waive this requirement where it is unnecessary to fulfill the purposes and intent of this Chapter and under hardship would result from strict application thereof.
- (b) **Plat Data.** All preliminary plats shall show the following:
- (1) Exact Length and Bearing of the exterior boundaries of the proposed subdivision referenced to a corner established in the U.S. Public Land Survey and the total acreage encompassed thereby.
 - (2) Locations of all Existing Property Boundary Lines, structures, drives, streams and water courses, marshes, rock outcrops, wooded areas, railroad tracks and other significant features within the tract being subdivided or immediately adjacent thereto.
 - (3) Location, Right-of-Way Width and Names of all existing streets, alleys or other public ways, easements, railroad and utility rights-of-way and all section and quarter section lines within the exterior boundaries of the plat or immediately adjacent thereto.
 - (4) Location and Names of any Adjacent Subdivisions, parks and cemeteries and owners of record of abutting unplatted lands.
 - (5) Type, Width and Elevation of any existing street pavements within the exterior boundaries of the plat or immediately adjacent thereto, together with any legally established centerline elevations.
 - (6) Location, Size and Invert Elevation of any existing sanitary or storm sewers, culverts and drain pipes, the location of manholes, catchbasins, hydrants, electric and communication facilities, whether overhead or underground and the location and size of any existing water and gas mains within the exterior boundaries of the plat or immediately adjacent thereto. If no sewers or water mains are located on or immediately adjacent to the tract, the nearest such sewers or water mains which might be extended to serve the tract shall be indicated by the direction and distance from the tract, size and invert elevations.
 - (7) Corporate Limit Lines within the exterior boundaries of the plat or immediately adjacent thereto.
 - (8) Existing Zoning on and adjacent to the proposed subdivision.
 - (9) Contours within the exterior boundaries of the plat and extending to the centerline of adjacent public streets to National Map Accuracy Standards based upon Mean Seal Level Datum at vertical intervals of not more than two (2) feet. At least two (2) permanent bench marks shall be located in the immediate vicinity of the plat; the location of the bench marks shall be indicated on the plat, together with their elevations referenced to Mean Sea

Level Datum and the monumentation of the bench marks clearly and completely described. Where, in the judgment of the Village Board, undue hardship would result because of the remoteness of the parcel from a mean sea level reference elevation, another datum may be used.

- (10) High-Water Elevation of all ponds, streams, lakes, flowages and wetlands within the exterior boundaries of the plat or located within one hundred (100) feet therefrom.
 - (11) Water Elevation of all ponds, streams, lakes, flowages and wetlands within the exterior boundaries of the plat or located within one hundred (100) feet therefrom at the date of the survey.
 - (12) Floodland and Shoreland Boundaries and the contour line lying a vertical distance of two (2) feet above the elevation of the one hundred (100) year recurrence interval flood or, where such data is not available, two (2) feet above the elevation of the maximum flood of record within the exterior boundaries of the plat or within one hundred (100) feet therefrom.
 - (13) Soil Types and their boundaries, as shown on the operational soil survey maps prepared by the U.S. Department of Agriculture, Soil Conservation Service.
 - (14) Location and Results of Percolation Tests within the exterior boundaries of the plat conducted in accordance with Section H 85.06 of the Wisconsin Administrative Code where the subdivision will not be served by public sanitary sewer service.
 - (15) Location, Width and Names of all proposed streets and public rights-of-way such as alleys and easements.
 - (16) Approximate Dimensions of All Lots together with proposed lot and block numbers.
 - (17) Location and Approximate Dimensions of any sites to be reserved or dedicated for parks, playgrounds, drainageways or other public use or which are to be used for group housing, shopping centers, church sites or other nonpublic uses not requiring lotting.
 - (18) Approximate Radii of all Curves.
 - (19) Any Proposed Lake and Stream Access with a small drawing clearly indicating the location of the proposed subdivision in relation to access.
 - (20) Any Proposed Lake and Stream improvement or relocation, and notice of application for approval by the Division of Environmental Protection, Department of Natural Resources, when applicable.
 - (21) Where the Village Board finds that it requires additional information relative to a particular problem presented by a proposed development in order to review the preliminary plat, it shall have the authority to request in writing such information from the subdivider.
- (c) **Submission.** The subdivider may consult with the Village Board regarding the requirements for minor subdivisional certified surveys before submission of the final map. Following consultation, a copy of the final map in the form of a certified survey map shall be submitted to the Village.
- (d) **Proposed Layout.** The Village Board may require a proposed subdivision layout of all or part of the contiguously owned land even though division is not planned at the time.
- (e) **Certified Survey.** The following procedures shall be followed with certified surveys:
- (1) Pursuant to Section 14-1-7, the subdivider shall cause a certified survey map to be prepared in accordance with Section 14-1-9 of this Chapter and submit ten (10) copies to the Village Clerk. The map shall be reviewed by the Village Board for conformance with this Chapter and all ordinances, rules, regulations, comprehensive plans and comprehensive plan components
